ABOUT ME

I am a dedicated Computer Science student with hands-on experience in frontend development using HTML, CSS, JavaScript, and React. I specialize in creating responsive, user-friendly web interfaces with a focus on clean design and performance. Alongside frontend skills, I have a strong foundation in Data Structures and Algorithms, regularly practicing on platforms like LeetCode and GeeksforGeeks.

I understand core concepts such as recursion, sorting, searching, and time-space complexity, which strengthen my problem-solving approach. I'm proficient with Git for version control and familiar with REST APIs for integrating frontend with backend systems. I'm seeking an internship where I can apply my technical skills, contribute to impactful projects, and grow as a full-stack developer.

ACADEMIC QUALIFICATIONS

Shree Tribhuwan Hanuman Sec. School

English Medium

2020-2021

CGPA : 85%

OM NATIONAL ACADEMY +2 SCIENCE

+2 Science in Biology
